Boys' Shoes

Boys nowadays are just as particular in reference to their footwear as their brothers and uncles-The time when a mother brought the young fellow into the store and had him fitted with the same style time after time doesn't suit the boy today-He insists on getting a pair that has some style - also much comfort - Our English models are good looking-Mothers will appreciate the quality and durability-Father, who pays the bill, finds satisfaction in our moderate prices-Sizes 1 to-6.

POWELL'S HOME BAKERY

As a Window Lets in Light-Pyrex Lets in Heat

ORDINARY baking pans depend upon contact heat—PYREX utilizes radiant heat as well. When you consider that two-thirds of the heat in an oven is radiant heat and only one-third is contact heat, you realize why PYREX saves time and fuel-and betters the baking!

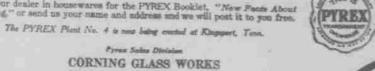

TRANSPARENT OVEN DISHES Utilize All of the Oven Heat

PYREX lessens work, makes it easier to prepare and serve a meal, and saves extra pan cleaning. You bake and serve in the same golden-hued PYREX dish—and the polished surface is easy to clean.

Try the New Visible Cookery in PYREX and see the improvement. There are PYREX dishes for every baking need. PYREX never chips nor crases and is guaranteed against breakage from oven heat. PYREX never grows old.

PYREX is the original transparent occurrer. Always look for the PYREX label—and the name PYREX stamped on each piece.

Ask your dealer in housewares for the PYREX Booklet, "New Pace About Cooking," or send us your name and address and we will post it to you free.
